Bath Cabinets

August 2008

When remodeling or building, it's fun and exciting to coordinate fixtures, colors, fabrics and accessories. The Studio U and Gallery Collections of bath cabinets expand these possibilities, allowing you to integrate creative design ideas with beautiful and functional storage solutions. With frame, cabinet and installation options, as well as customization opportunities, you can truly express yourself.

Gallery Deluxe bath cabinets represent the pinnacle in artistry and craftsmanship—combining style, design and materials in a functional piece of art. Choose either a stainless steel or white interior cabinet body, frame options, and let your creativity flourish. Do you wish to install a single cabinet over a pedestal sink or multiple units in a row over a long counter? Would you like a traditional aesthetic using our hardwood frames, or would you prefer a sleek and modern frameless presentation? What about creating your own custom frame, matching your home's woodwork and stain? Gallery Deluxe offers infinite possibilities with frame, gang kit, recessed, semi-recessed and surface-mount kit options. See pages 8 and 9 for more installation and customization details.

Gallery Deluxe

Shown: 72SS244D, recessed with no frame

25" or 35" tall, 4" or 6" deep

Gallery Deluxe interior is available in two cabinet styles:

- A. Fabricated stainless steel cabinet with a black door
- B. Enameled white steel cabinet with a white door

Reversible mounting allows left- or right-hand door opening

Exterior mirror is premium float glass that provides a deep rich reflection

Eurodesign hinges open 170° for added viewing space

1" beveled trim on the front mirror

Adjustable 1/4" thick glass shelves for superior light reflection; 24" model: 3 shelves, 34" model: 4 shelves

Snap-fit shelf supports lock glass shelves in place

Interior back panel mirror

Interior door mirror

Integral recessed door finger pull

Full perimeter bumper cushions the door for a quiet close

Dark Cherry

Unfinished Cherry

Unfinished Poplar (Paintable)

Gloss White

Four frame options are available for both recessed or surface-mount applications. See pages 8 and 9 for design ideas, and specifications.

72WH346D	White	Frameless	Single	Rectangle	15 35	14 1/4 34 6

Note: All measurements are in inches.

*Only models with a 6" depth can be Semi-recessed and require a Semi-recessed Mirror Kit.

**Only models with a 4" depth can be surface mounted and require either a Surface Mount Side Mirror Kit or a Surface Mount Frame.

For information on Surface Mount and Semi-recessed Side Mirror Kits, and Gang Attachment Kits, see page 8.

Shown: 72WH304D (30" tall,
4" deep, with beveled mirror)

Gallery Oversize

Gallery bath cabinets are well known for beauty and craftsmanship. And now, they are known for even more—storage space, that is. Gallery Oversize cabinets are now available a full ten inches wider. That provides an additional 180 square inches of storage space on four glass shelves and the base of the cabinet. Whether recessed or surface mounted, the beautiful, rich, beveled float glass mirrors provide a timeless complement to every bath or powder room.

30" tall, 4" deep

Gallery Oversize interiors are available in two cabinet styles:
A. Fabricated stainless steel cabinet with a black door (shown right)
B. Enameled white steel cabinet with a white door

Reversible mounting allows left- or right-hand door opening

Exterior mirror is premium float glass that provides a deep rich reflection—framed in a 1/2" beveled trim

Four adjustable 1/4" thick glass shelves for superior light reflection

Snap-fit shelf supports lock glass shelves in place

Interior mirrors on the back of the cabinet and the inside door add light and functionality

Integral recessed door finger pull

A rubber bumper around the perimeter cushions the door for a quiet close

125° concealed hinges allow wide door opening and smooth operation

Shown: Gallery Oversize 72SS304DF

Note: All measurements are in inches.

* For information on Surface Mount and Semi-recessed Side Mirror Kits, and Gang Attachment Kits, see page 8.

Gallery provides the inspiration.

If you previously ordered Gallery Collection from Jensen:

The Jensen number you used to order is now cross referenced on the charts to the right. Use the NuTone model number to order the cabinet, frame and accessories needed for your installation. If you have questions, contact NuTone customer support at 800-325-8351.

The Gallery Collection is a complete "storage system solution." In fact, your possibilities are truly infinite when considering the options below.

1. Determine how many cabinets and how much storage you'd like.

Would you prefer one model over a pedestal sink, or do you want to create a custom storage and design statement with multiple cabinets? All of our models can be either recessed or surface mounted, and with our Gangable Attachment Kit you can seamlessly install as many cabinets in a row as you wish. See photo on page 9.

2. Select your Gallery cabinet style: Keep in mind factors such as...

which materials and colors you'd prefer (stainless steel or painted white cabinets), do you want internal cabinet mirrors, and would you prefer 170 degree hinges (allowing you to truly utilize the back of the door for viewing)? Answering these questions will help drive your selection.

3. Determine how deep your walls are and the storage space you need.

Now you can decide on all of your dimensions. 25" or 35" tall? 4" or 6" deep? Consider 6" deep Gallery Deluxe models for unbelievable, yet hidden storage space—especially in powder rooms over a pedestal sink. 4" and 6" deep cabinets can be recessed or surface mounted, while 6" cabinets have the option of being semi-recess mounted in a standard wall.

4. To frame or not to frame... now it really gets interesting.

If you prefer a modern or minimalistic style, install a Gallery unit with no frame at all—either recessed into the wall or with one of our Surface Mount Side Mirror kits. Or choose one of our beautiful recessed or surface mount pre-stained hardwood frames, which are fully assembled and stained out-of-the-box (like a picture frame) for easy installation and perfect-fit mitered corners.

5. Still not satisfied with your options? No problem.

Poplar and Cherry hardwood frames are available unfinished allowing you to custom-stain or paint to match your cabinetry. Or you or your professional carpenter can create your own frame mouldings that perfectly match your home's woodwork and cabinetry.

Surface Mount Side Mirror* Kits (for 4" cabinet depths only)

Model Number	Former Jensen no.	Description
760024	G150024	(for cabinets with a 24" wall opening height)
760030	G152430	(for cabinets with a 29" wall opening height—see page 7 for product details)
760034	G150034	(for cabinets with a 34" wall opening height)

Semi-recessed Side Mirror Kits (for 6" cabinet depths only)

G1530	(for cabinets with a 24" wall opening height)
G1540	(for cabinets with a 34" wall opening height)

Horizontal Gang Attachment Kit

Previous Jensen number: G1520

76GK* (for 24", 29" and 34" wall openings)

Example 1: Recess three cabinets in a row (3 cabinets - 1) = 2 Horizontal Gang Attachment Kits.

Example 2: Surface mount four cabinets in a row (4 cabinets - 1) = 3 Horizontal Gang Attachment Kits, **plus** 4 Surface Mount Side Mirror Kits.

Vertical Gang Attachment Kit

G1525* (for 24", 29" and 34" wall openings)

Example 1: Recess two cabinets in a column (2 cabinets - 1) = 1 Vertical Gang Attachment Kit.

Example 2: Surface mount two cabinets in a column (2 cabinets - 1) = 1 Vertical Gang Attachment Kit, **plus** 2 Surface Mount Side Mirror Kits.

*To determine the quantity of Gang Kits needed, subtract 1 from the number of cabinets to be ganged. When ganging **and** surface mounting cabinets, 1 Surface Mount Side Mirror Kit is required for each cabinet.

You provide the imagination.

Gallery Collection lets you express yourself, so be as creative as you desire. Paint or stain your frame however you wish. Or, design your own frame with sophisticated mouldings. With Gallery, you're only inhibited by your imagination.

Shown: Unfinished Poplar frame with custom paint

With Gallery Collection, you can also customize your storage. Here we've created a tri-view cabinet by recessing and ganging three cabinets together using our Gangable Attachment Kits.

Surrounding the three cabinets is a professionally crafted, custom frame (not supplied or offered by NuTone Premier). It demonstrates how a custom frame can be built to perfectly match your interior design and woodwork.

Gangable Attachment Kit(s) must be used when two or more cabinets are mounted side-by-side to ensure proper attachment and spacing. Cabinets can be "ganged" together in either recessed or surface-mount installations. Shown above, three recessed Gallery Deluxe (72SS244D) cabinets joined by two horizontal Gangable Attachment Kits (76GK).

Studio V Series—in Traditional and Contemporary Frames. Now it's easy to add the perfect complement to today's rich, bath hardware and fixtures. New metal finish frames in traditional or contemporary profiles provide an alternative to matching woodwork or cabinetry. With 72 size and style options there's a sure fit with any décor and storage need. Stainless steel or white painted cabinet bodies, glass shelves and 170° Euro-style, soft-close hinges withstand the rigors of everyday use. Light gathering mirrors on the inside door and cabinet back double the functionality when open. Studio V Series bath cabinets take style and sophistication in a fresh, new direction.

Ordering Guidelines

- Select your base model number.
- Add the two-letter code for cabinet body option, "SS" for stainless steel or "WH" for white.
- Add the three-letter code for frame finish (color) and style (traditional or contemporary). **Example:** To order a Studio V Series, 34" tall, 4" deep cabinet with a stainless steel body and a traditional Satin Nickel frame your model number will be **S568N344SSNP**.

170° concealed soft-close hinges allow wide door opening and smooth operation

Contemporary Frames

Oil-rubbed Bronze (BZC) Satin Nickel (SNC) Copper (COC) White (WHC)

Traditional Frames

Black (BKP) Satin Nickel (SNP) Oil-rubbed Bronze (BZP) White (WHP) Espresso (ESP)

Traditional or Contemporary? Whatever your décor preference is, the City Collection lets you express yourself. Whether it's the timeless beauty of City Traditional or the sleek, modern design of City Contemporary, you're sure to find the perfect complement and simple sophistication for any décor.

City Traditional

Timeless design is the hallmark of the City Collection Traditional line. Available in fine-grained woods with exquisite, durable finishes, our City Traditional frames lend simple sophistication to any décor. The soft curves of the frame profile are enhanced by a crisp bevel on the premium float glass mirror. Give the door a gentle tug and it glides open to reveal a rich, satin-black cabinet. Mirrored surfaces on the inside door and the back of the cabinet gather light to add visibility. Locking shelf supports ensure the adjustable glass shelves remain securely positioned. Fabricated from the best materials, City Traditional frames will come to be viewed as fine furniture for your home, whether used to complement or contrast with other textures, colors and finishes. See page 13 for specifications.

City Contemporary

Is it modern? Or is it Eurodesign? Whatever you call it, elegant simplicity describes it best. And regardless of how you design with City Collection Contemporary frames, our four beautiful wood finishes will cover every need. The shallow bevel of the frame rises from the wall surface to create a clean and refined appearance. Smooth hinges silently guide the door open to present a satin-black cabinet. With mirrors on the inside door and the back of the cabinet, as well as adjustable glass shelves, light is reflected into every corner for superior visibility. Timeless in design, City Contemporary frames will be a perfect complement to a broad range of colors, textures, and fine fabrics—now, and in the years ahead. See page 13 for specifications.

Add a splash of color with a bold, vibrant iColor Collection bath cabinet. They're contemporary, fashionable and sure to reflect your sense of style.

We heard it time and again—a bath cabinet is just a bath cabinet. And that got us thinking; why should a product only be what people expect? iColor™ Collection helps you express your sense of style in two bold colors. These fabricated cabinets feature a durable baked-on powder coat finish, and float glass mirrors to ensure a distortion-free reflection. Whether surface mounted or recessed, iColor™ is a cure for the common cabinet.
